REMOVAL.
Goffe's Furniture, Upholstery and HOUSE FURNISHING WARE
ROOMS, NOS. 5 & 7 WASHINGTON SQUARE, OPPOSITE THE PARK.
MANUFACTORY NO. 28 BRIDGE ST.

HAVING completed the arrangements in fitting up and furnishing my new store, I would invite the attention of purchasers to my stock of Furniture which is principally of very fine and durable material, and at prices which shall be satisfactory.

Having been engaged in manufacturing and conducting the cabinet business for the past sixteen years, I feel warranted in saying that my work is executed by none and my arrangements for the future such as will in all respects be satisfactory to my customers.

To my many friends and patrons who, turning aside from the regular and beaten path of trade, have contributed towards what I may have attained of success in business, I return my sincere thanks and hope for many years to come to serve them with the same good and substantial work as of old.

WHEREAS my wife, MARY F. MUMFORD, has conducted herself in the most unwomanly manner, and in violation of her marriage covenant, I therefore hereby forbid all persons trusting her on my account, as I will have no debts or her contract.

SAMUEL S. MUMFORD.
Newport, Feb. 5th, 1859.

I WISH to enquire of SAMUEL S. MUMFORD, if he violated his marriage covenant and behaved himself unwomanly in not having the same respect and regard as his wife for the girl he sent me from Hartford to make a week's visit, in October last. If so, the public can judge the cause of the unjust, ungentlemanly, scandalous piece inserted above. He well knows that I have not been able to trust on his credit for more than one year, and at the time of our marriage, was in debt, and not able to pay my expenses to Newport; and he could have saved the exposure of these facts, his money and credit too, by waiting the above Notice. From my sad experience, I would caution all single ladies to

Beware of the man whose head is so red, That he needs not a candle to light him to bed.

I have proved to my sorrow, that such from their youth.

Are full of deception, as well as untruth.

AMERICAN AND FOREIGN PATENTS

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 STATE, OPPOSITE KILBY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.

Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on Liberal Terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere.

The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and AS SUCCESS AS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the most capable and successful practical men with whom I have had official intercourse."
CHAS. MASON, U. S. Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and successful consideration at the Patent Office."

EDMUND BROWN, U. S. Commissioner of Patents.
Boston, February 8, 1858.

"Mr. R. P. Eddy made for me FIFTEEN applications on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.
From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

R. H. EDDY.
DISSOLUTION

THE CO-PARTNERSHIP heretofore existing between the subscribers under the firm of

NEWTON BROTHERS, expires this day by its own limitation. E. F. NEWTON retired from the business, and either partner is authorized to sign the name of the late firm in the settlement of their affairs.

EDWARD F. NEWTON, WILLIAM NEWTON.

FOR GENERAL TREASURER
SAMUEL A. PARKER,
Of Newport.

Fusion, not Coalition.

In speaking of the recent New Hampshire election the *Tribune* makes some excellent comments by which our Rhode Island Republicans both of the "straight" and "crooked" organizations may profit.

"That the majority is smaller in her recent election is due to the fact that the Republican candidates for Governor and Members of Congress were all active and zealous Whigs in the old times. They were able, respectable good men; any one of them by himself was unquestionable; but all of them composed a ticket not acceptable to the Five Thousand Democrats of other days who are now zealous and most efficient Republicans. Had one of the three candidates for Congress been chosen from this class, we believe the majority of none of the Members about need have fallen much below One Thousand, while that of Gov. Goodwin might have approached Four Thousand."

We make this explanation for the benefit not of New Hampshire only, but of the Republican cause in all the States. The lesson may everywhere be profitably heeded.

This advice comes, as it properly should, from a paper which fought as earnestly for the Whig party and against the Democratic as any other in the land, so long as these two names represented the principles actually at issue. But its Editors have wisdom enough to see that nothing can be so fatal to the Republican cause as to make it merely a *rump* of the old Whigs, and to drive back into Democratic ranks those who have protested manfully against the prostitution of that name to the purposes of the South, and who have finally abandoned it and come over to us for the sake of principle.

A coalition of dissimilar parties for the sake of obtaining office is about the meanest of political tricks: a fusion of all men, whatever their party antecedents, in supporting a principle which they know to be right, is the most hopeful sign in the political firmament. It is the strength of the Republican party that they can bring to their support men like Robert R. Carr, and Thomas Davis from the old Democratic party; to work shoulder to shoulder with Robert B. Cranston, and Byron Diman, and Elisha Harris, for the common cause of free speech and free men.

THE NEW THIRD ASSISTANT POSTMASTER GENERAL.—Mr. Zevely, the new Third Assistant Postmaster General, has grown old in the service of the Department, wherein for some years past he has occupied the place of greatest trust and responsibility, next after the position of an Assistant Postmaster General. He is a gentleman of few words, great industry and caution, excellent sense and scrupulous rectitude of character, qualities which fit him eminently well for the satisfactory duties of the position. We do not know that Mr. Zevely has any particular politics. In the course of perhaps twenty years' acquaintance with him, we never heard him open his mouth on a political topic. His selection, under the circumstances, satisfies us that the President, simply looked for the best man to fill the place, so far as the public interest is concerned—not regarding a blatherskipping, noisy political partisan. The novelty of the thing deserves to be noted.—*Washington Star*.

EFFECT OF THE COMET.—The Correspondence *Asiatica* publishes a letter from China, which asserts that the Emperor of that country was so alarmed at the comet, that he had fasted himself in a room with poison and a cord, in order to die, and to his existence in the event of his coming any disaster.

THE STATE OF THE UNION.
The report of the Secretary of the Treasury on the affairs of the United States, has some interesting results, especially when compared with the reports of former years. If we place it side by side with that of January 1st, 1887, we find the results of the commercial panic of this year, to have been far different from that gloomy foreboding of universal bankruptcy and scarcity of money which were rife at that time. Business activity has been diminished, it is true, and many bubbles have collapsed, but the amount of capital seeking investment has greatly increased. Those who possess only a reputation of the poverty-stricken years which followed 1887, must be somewhat surprised to learn that within two years the bank capital of the Union, representing the money lenders as distinct from the borrowers, has gone up from three hundred and seventy to four hundred million, and the amount of specie held by them has nearly doubled, and now amounts to more than twenty-five per cent of their capital. Loans and discounts, and circulation on the other hand, representing the needs of borrowers, have considerably fallen off, the former by thirty and the latter by twenty millions.

The general footings of the Secretary's report are as follows:

	1887.	1899.
Capital paid in.....	\$670,324,484	\$401,970,342
Loans and discounts.....	684,456,887	666,383,729
Specie.....	39,273,329	63,502,449
Redeemable.....	26,124,822	28,976,471
Other investments.....	9,020,886	8,202,051
Due to other banks.....	66,810,206	78,344,037
Notes of other banks.....	28,124,063	76,888,287
State Funds.....	28,081,641	26,806,821
Other Funds.....	58,810,206	104,557,818
Liabilities.....	214,778,832	103,306,818
Deposits.....	209,851,852	220,508,278
Due to other banks.....	57,074,855	63,212,229
Other liabilities.....	39,616,550	18,109,147

From this and other sources we learn that the average Bank capital of the Union is about twelve dollars to each person. The states which greatly exceed this are New York, with an average of twenty-five dollars; Louisiana, with forty dollars; Massachusetts, about fifty-five dollars; and Rhode Island having more than one hundred and twenty dollars of Bank capital for every inhabitant.

The greatest concentration of capital in any one city in proportion to its size, throughout the Union, is doubtless in Providence, which has almost three hundred dollars to every inhabitant. The average in Newport is about the same with that of the whole state, or rather below it.

THE NEWSPAPER.—In the last number of the Independent, Mr. Beecher has the following in his weekly "Star Paper" concerning American newspapers:

"Consider how universal are newspapers in America. They penetrate every nook and corner of society. No other element of power has such a sphere. The pulpit, the court, the lecture, compared with the newspaper, touch society in but few places. The newspaper in America is universal. It reaches within and without, from surface to core; it travels everywhere, it is bought by everybody, read by all classes, and is wholly or nearly the only reading of more than half our population. Its service to good morals and to intelligence among the people is invaluable."

All the libraries of Europe are not of as much service to the nations of Europe as the newspaper is to the American nation. Its power is growing. Who would, twenty years ago, have dreamed of such a growth and power as have been developed? But the next twenty years will witness a greater. The Editor is to be the great Schoolmaster. The best talent will find its highest sphere in the editorial room. Already the Chair is more influential than the Bench or the Platform. No brain can act upon so many as that which speaks by the printing press of the Daily paper. Ink beats like blood in the veins of the nation."

Important from Mexico.

We have telegraphic accounts from Vera Cruz to the 9th inst., brought by the Tennessee. According to these accounts, which, coming as they do through Vera Cruz, are liable to the suspicion of some exaggeration, the left wing of Miramon's army had been defeated at Cordova, and driven back with some loss. Former accounts represent Miramon as having been repulsed from Perote, so that, if all this is true, the people of Vera Cruz would appear to have some grounds for their confident opinion that Miramon will never appear before their city.

But this news not merely repulses Miramon in front; it threatens him in the rear. It is stated that Guanajuato and Aguascalientes have been captured by the Liberals, now, or under whose lead, is not stated—an important omission, considering the fact that previous accounts had not made us aware of any Liberal force organized or operating anywhere in the neighborhood of those cities. It is also stated, as if to give roundness and completeness to the story, and to insure the safety of Vera Cruz, that Gen. Decollado is preparing to march on the capital with a force of ten thousand men. But in Mexico, of all places in the world, preparation is one thing and performance quite another. These northern Mexican chiefs have been preparing ever since the war began, to march on Mexico, but none of them has yet done it, except Blanco, and he very soon found it expedient to march back again. If Miramon meets with no further interruption than that to be apprehended from the preparations of Decollado, he will stand a very good chance to make himself master of Vera Cruz.

TRICKS AND TRAPS OF INSURANCE COS.—The United States Life Ins. Co., New York, are now contesting the payment of one of their policies, on the ground that it insured the wife's life for the benefit of the husband, and that it was therefore a mere trick, and as a gambling transaction, not entitled to the protection of the law. If this contemptible defense shall be sustained by the Courts, how many policies now held by persons in this vicinity, will become null and void?

LOCAL INTELLIGENCE.

COURT OF JUSTICE.—The court room was crowded to capacity yesterday morning, by a large number of persons attracted thither from motives of curiosity. It was a motley assemblage, composed of men of various nations, and every shade of complexion, from the most sooty Ethiopian up through the various grades to the pale faced white man, with a liberal sprinkling of the unwashed and uncombed specimens of the genus homo. "Uncle Sylvester," "the man of few words," and Mr. Sheffield, the man of many words, were there in their separate capacities, each justifying the appellation that has been bestowed upon them.

The case on trial, was the State versus James O'Riley and Jeremiah Ribiley.—The defendants were charged with smashing in the windows of Thomas Kenney, No 30 William Street, Sunday evening, 6th inst. The facts, as developed in the testimony, are briefly as follows: O'Riley and Ribiley, together with another person named in the warrant but whom the police had not succeeded in arresting, visited the residence of Kenney early in the evening, and after a short tarry took their leave. A short time afterwards, Kenney, having occasion to go into the street, was set upon by these same three men, and rolled in the gutter, and from whom he escaped and fled into his house. A short time subsequently, three men approached the building and smashed in several of the windows. Marshal Seale took the matter in hand, with a view to ferreting out the offenders and bringing them to justice, Kenney promising to aid him in so doing, expressing at the same time a certainty that the three persons that visited his dwelling in the early part of the evening, were identical with those who assaulted him and afterwards broke his windows, and even went so far as to give Mr. S. the names of the parties, on the strength of which information they were brought before the Court. A day or two afterwards, when inquired of by Mr. Seale as to his progress, he announced to him that the matter had been settled. The Mayor thought differently however, and deeming the offence one against the peace of the State, had the parties arrested and brought into court as above.

Mr. Sheffield appeared for the defence, and Mayor Cranston managed the case on the part of the Government. Several witnesses were examined for the Government, among whom were Kenney and his wife. Kenney was very explicit as to the identity of the three men who visited his dwelling with those who committed the assault; but beyond this everything was involved in obscurity. It was evident that a *phantom* of some sort, had been applied to the witness' mouth, and covered up; and Mayor Cranston, as prosecuting attorney, proceeded very adroitly to uncover it. He had only removed the outer covering, however, sufficient to touch the extreme edge of this plaster, when Mr. Sheffield sprang to his feet and "objected," flanking his objection with one of his characteristic arguments which was replied to briefly by Mr. Cranston. The Court sustained the objection.—During the examination of this witness, however, Mr. Cranston managed to wring from him the acknowledgement that the defendants had paid him thirty dollars—which he swore was intended as an indemnification for the assault upon his person; which indemnification, considering that said assault consisted only in rolling him in the gutter, it must be acknowledged was quite ample. Thus, by adroitly putting this money in the right place, and adroitly doing something else, by the witness, that we need not name, it being sufficiently evident on its face, justice was once more cheated of her dues. We venture to say, that there was not a man in that court room, including the defendants' counsel himself, but was fully convinced in his own mind that the defendants were guilty of the act charged upon them; even the Court were of this opinion, but they could not go behind the evidence, and the defendants were discharged. There was an outburst of applause among the friends of the parties when this announcement was made, which was promptly suppressed. We understand there is an action pending against Kenney for a violation of the laws.

The case of Hazard, for keeping a gambling house, was continued to next Friday.

ASSAULT ON MARSHAL SEALE.—Last evening, Marshal Seale was summoned to the residence of George Dunwell, a man of intemperate habits, on Washington Street, to protect his family from his drunken violence. He entered the house and ordered Dunwell to accompany him to the watch-house. This he signified his readiness to do, only requesting to be allowed to go for his hat and coat. This being granted, he started off, but in an opposite direction from his hat and coat, and made his escape into the yard, where he was followed by Mr. Seale. Here Dunwell caught up a piece of board, quite sharp on one edge, with which he dealt Mr. S. two blows in rapid succession; the first knocking off his hat and his cane out of his hand, and the second inflicting a fearful wound on the left side of his skull, just above the eyebrow. Dunwell then ran and jumped into the dock, whence he was

hauled out by two men who witnessed the operation, and conveyed to the jail, where he was locked up for safe keeping. He will doubtless realize, ere long, that he has not done well by the operation. Mr. Seale was conveyed to his residence on Farewell Street and Dr. Turner called to attend to his wound. We are glad to learn that his injury is not of a serious nature, though it will confine him to his house for several days. He will no doubt live to settle accounts with many a rogue, yet.

The following communication was received by the Board of Firewards at their meeting Monday night:

NEWPORT, March 1st, 1899.
GEORGE BURROUGHS, Esq., CHIEF ENGINEER FIRE DEPARTMENTS.
Dear Sir:—After mature deliberation, with much reluctance I have decided to send you my resignation as an Assistant Engineer of the Fire Department. My great reason for resigning, is the want of physical strength to do you and myself, or the City, justice.
I congratulate you and my former associates, on the good condition of the Department, and hope you may be as successful in the future as we have been in the past; for our wooden city has much to fear from fire.
Yours with much respect,
J. H. COZZENS.

The first number of the Providence *Evening Press*, a large and handsome sheet made its appearance upon our table yesterday, and we greet the new comer most cordially. If its editorial columns continue to show the same excellent taste that have distinguished the *Warren Telegraph* while under the control of one of the editors of the new sheet, we shall have still another first class paper in Providence; and we heartily wish the new enterprise all success.

MASSACHUSETTS LIBERALITY AND PATRIOTISM.—The amount realized by the labors of Mr. Everett for the purchase of Mt. Vernon thus far, is more than \$80,000. Besides this Massachusetts will have contributed, when the fund is complete, nearly \$40,000 more, making one half of the whole amount. This is the best answer to the frequent sneers at Massachusetts and her patriotism. When old Massachusetts gives as much as all the other thirty-two States to this patriotic purpose she can afford to have di-unionists and fire-eaters sneer at her, but they must wait till they equal her liberality and her patriotism before they are entitled to any respectfully notice.

HAZARD & CASWELL'S PURE & GENUINE LIGHTSTRAW COLORED MEDICINAL COD LIVER OIL, PREPARED FROM SELECTED LIVERS ONLY.

The great remedy for Coughs, Colds, Consumption, Asthma, Rheumatism, Scurvy, Itch, and all General Debility, and all diseases arising from deficient nutrition.
Professor Parker, in the "American Medical Monthly," says:
"We have had patients use it, who had tried almost every manufacturer's oil, and give this the decided preference. It is easily digested, and does what is expected of it. It is of a light straw-color, has none of the rancid fish odor, but is sweet and pleasant."
Professors Palmer and Gunn, in the "Penny Medical Monthly," say:
"We pronounce it to be as free from odor, and pleasant taste, as Cod Liver Oil seemingly can be."
From Professor A. A. Hayes, State Assayer of Massachusetts:
"I have subjected to chemical analysis the Cod Liver Oil prepared and put up for sale by Messrs. Hazard & Caswell, of Newport, R. I. It proves to contain, unaltered, the Iodic compounds, essential to efficiency of action; and in comparison with the finest specimens I have seen of foreign oil, it takes the highest place."
The importance of having a reliable source from which this valuable remedy, in a state of purity, can be obtained, leads me to recommend, with confidence, this excellent article. Respectfully,
A. A. HAYES, M. D., Assayer to State of Massachusetts.
The testimony of every Resident Physician corresponds with the opinion of Professor Hayes, viz.:
James V. Warner, M. D., Theo. C. Dunn, M. D., David King, M. D., H. E. Turner, M. D., Daniel Watson, M. D., W. Argyle Watson, M. D., Samuel W. Butler, M. D.
HUBBELL, Chemist, of Philadelphia, says:
"It is unequalled by that of any other manufacturer, for freshness, freedom from taste and odor. It is more efficient than any similar article yet offered."
Our Oil, if not too long kept by the dealer is perfectly sweet and palatable, not requiring to be manufactured into emulsions or jellies, to conceal a nauseous taste, as inferior Oils do.
The testimony of hundreds, to the same effect, can be presented, but any one acquainted with the sensible properties of the Oil will at once perceive its great superiority over all others offered to the public. Be certain to observe, on the label of each bottle, the signature of Hazard & Caswell, and also upon the metallic capsule covering the cork.

DRY UP.

Occasionally a really valuable medicine is suddenly introduced, and as suddenly disappears. Such a medicine is Dr. Wadsworth's Dry Up-which, by the way, we have no hesitation in pronouncing a cure for Catarrh in its worst form.

The Dry Up has been before the public but a few months, and yet it is already meeting with a sale, both at home and abroad.

Dr. Wadsworth's Vegetable Compound Syrup, which takes its place among the great medicinal remedies of the present day, and which has been so long and so extensively used, is offered for sale by Dr. C. E. HAMMETT, Jr., No. 1 North Main street, -Providence, R. I.

Sold in Newport by H. H. YOUNG, Parade corner, sole agent for this city.
